## ORNAMENTAL STITCHES

### Ornamental Stitches

Thanks to the touch screen panel it is possible to quickly and easily select the type of 1 or 2 needle ornamental stitch.

### For Heavy Duty

The machine is suitable for heavy work such as leather and automotive thanks to the 32mm XXL crochet and the max stitch length of 12mm.

### Feeding

Alternating feet device for optimal feeding on leather and RAP HP device to set from the two knobs a double height of the foot to be activated with the electronic kneepad near thickenings of the material.
